Affordable, Simple, Reliable Measurement

Bacharach's line of CO$_2$ Analyzers has been expanded to now measure CO$_2$, O$_2$, temperature, relative humidity, and barometric pressure.

Available in three models:

- 2825 – CO$_2$ (high range), O$_2$ and Pressure

- 2830 – CO$_2$ (high range), O$_2$, Pressure and Temperature

- 2835 – CO$_2$ (low range), Pressure, Temperature and R.H.

Each reading is displayed separately, but by pressing the f3 button the user can easily scroll through all the readings. Peak readings can also be displayed by pressing and holding down the f3 button.

All models feature data-logging, run-and-charge capability, a user-zero function for all gases, and an internal pump for remote sampling. There is enough memory to store up to 200 sets of data. Power is provided by a long-life NiMH battery, which is capable of providing up to 8 hours of continuous operation from one charge.

The CO$_2$ Analyzers are small enough to fit in the palm of your hand, remarkably easy to use, and are ideal for trend analysis and record keeping.
